Personal

Having recently moved from Kansas to Northeast Oklahoma to be near family. I am in search of full-time employment in the woodworking/ carpentry industry. I started my career at the age of 20 in Colorado Springs, Colorado, and have lived in several states since that time , all while perfecting my craft as a carpenter. I settled in Southeast Kansas in 1992.

Work history

I have 39 years experience in the field of carpentry. From ground breaking to turn key in both residential and commercial fields. I have extensive knowledge in operation of tools, both in the field and shop environments.

I specialize in high-end finish carpentry, although in course of my career I have excelled in residential, custom, commercial and luxury works.

I have the ability to read blue prints, problem solve on the spot along with supervisory skills and some CAD capabilities.

Skills

Framing

Install

Drywall

Tile

Solid surface

Custom fabrication

Layout

Etc.

I think that I'm a team player and work well with others as well as on my own. I'm a self starter and like to get things done.

Work history

2021 to present Crossland Construction Com

2009 to 2021 Westhoff Interiors
